

JAMAINE DRAKES

PROFESSIONAL SUMMARY

Results-driven professional specializing in automation, data analysis, and process improvement. Experienced with VBA, Power Automate, Python, and SQL Server Data Tools, with a strong track record of reducing manual work, improving turnaround times, and delivering practical solutions that support business decisions.

WORK EXPERIENCE

CONTRACTOR - TECHNOLOGY, CIBC CARIBBEAN

May 2025 - Current | Warrens, St. Michael, Barbados

- Redesigned and automated merchant activity reporting using VBA and SQL Server Data Tools, reducing turnaround times while delivering insights for five merchants daily.
- Designed automation solutions in VBA, SSDT, and Python in response to stakeholder requests, cutting task completion times from hours to minutes.
- Created and maintained process documentation in Confluence to support operations and knowledge retention.

BUSINESS PROCESS CONSULTANT, INCHCAPE CARIBBEAN INC.

Jul 2024 - Oct 2024 | Warrens, St. Michael, Barbados

- Streamlined cross-functional workflows through process analysis, inefficiency reduction, and targeted technology implementation.
- Supported organizational change initiatives by documenting processes, troubleshooting issues, and helping end users adopt improved workflows.

JUNIOR BUSINESS ANALYST, INCHCAPE CARIBBEAN INC.

Jul 2023 - Jun 2024 | Warrens, St. Michael, Barbados

- Integrated Web APIs into .NET Windows Services to improve data exchange and system interoperability.
- Implemented RPA solutions that streamlined cross-departmental processes and reduced manual effort by more than 60%.
- Supported system migration through gap analysis, issue resolution, and data merging with integrity.
- Produced documentation and delivered weekly training sessions for 30 employees to support successful adoption.
